# DIRECT DRIVE RACING WHEEL

User Manual

Thank you for choosing and supporting PXN. Please read this manual carefully before starting to enjoy your gaming experience.

### 

- \* When connecting, installing, and removing this product, apply appropriate force. Do not twist or pull the cables.
- \* Avoid splashing any liquids onto the product or its ports.
- \* Keep this product in a dry place. Do not expose it to fire, or environments with high humidity, temperature, or smoke.
- \* Please use the power cord provided with the base and do not use any other power cord. \* Do not use the power cord if the cable or its connector is damaged, cracked, or broken.
- \* Make sure the power cord is properly plugged into the electrical outlet and connected to the
- connector on the back of the base.
- \* Do not disassemble, modify, or attempt repairs on your own. Any maintenance must be
- performed by the manufacturer, their authorized representative, or qualified technicians.
- Only use accessories/components specified by the manufacturer.
- \* If this product exhibits any unusual noises, heat, or odors, please cease use immediately. \* If the product is not to be used for a long time, please disconnect the power cord from the power socket. The power socket must be located near the device and must be easily accessible.

Make sure that none of the ventilation holes on the base are blocked. For optimal ventilation, ensure the following:

- \* Keep the base at least 10cm away from any wall.
- \* Do not place the base in any confined space.
- \* Do not place any covering on top of the base. \* Please avoid dust accumulation in the ventilation holes.

### Temperature

- \* When the temperature exceed 60°C due to ventilation, environment, or usage, the base motor will automatically reduce the output power.
- \* When the temperature exceed 70°C due to ventilation, environment, or usage, the base motor will automatically shut down.
- \* Do not touch any part of the motor when the output power of the base motor is reduced or power OFF due to high temperature.

 ↑ Warning — Potential for Injury from Force Feedback and Repetitive Actions To avoid possible injuries caused by force feedback and repetitive actions, please refer to the usage suggestions:

- \* Avoid playing games for too long.
- \* Rest for 10 to 15 minutes after every hour of using this product.
- \* If you feel any fatigue or pain in your hands, wrists, arms, legs, or feet, stop playing and rest for
- a few hours before resuming the game.
- \* If symptoms or pain persist after resuming gaming, stop gaming and consult a physician. \* Keep out of reach of children.

\* Make sure the racing wheel base is secured as per the instructions in this manual.

## ⚠ Heavy Item

Be careful not to drop the product on yourself or anyone else!

This product is intended for use by individuals aged 16 and older.

### **Automatic Calibration**

After the power adapter is connected to the product and powered on, self-calibration can be performed automatically.

During the self-calibration process, the motor will perform a self-test by rotating left and right and then stop in the center position.

### 

To avoid possible incorrect calibration or personal injury, do not touch the product during the self-calibration process.

If the product appears to be operating improperly or is improperly calibrated:

Turn off the console/ PC and completely disconnect the power supply of this product. Then reconnect the power cord and other accessories, restart the console or PC, and then re-enter the game.

For safety reasons, never use the pedal set barefoot or with only socks on your feet. PXN® is not responsible for injuries caused by using the pedals without shoes.

# 

- \* Keep the pedal set out of the reach of children.
- \* Never place your fingers on or anywhere near the sides of the pedals during play.
- \* Never place your fingers on or anywhere near the rear base of the pedals during play.
- \* Never place your fingers on or anywhere near the front base of the pedals during play.
